TITLE XVIII—RESEARCH ON RESPONSES TO UNINTENDED  
PREGNANCIES

Sec. 1801. Report on responses to unintended pregnancy.

1 **SEC. 2. FINDINGS; PURPOSE.**

2 (a) FINDINGS.—Congress makes the following find-  
3 ings:

4 (1) 49 percent of all pregnancies in America are  
5 unintended. Excluding miscarriages, 42 percent of  
6 unintended pregnancies end in abortion.

7 (2) There are 1,200,000 abortions annually in  
8 America and one in five pregnancies ends in abor-  
9 tion.

10 (3) 57 percent of women who have abortions  
11 have incomes below 200 percent of the poverty level.

12 (4) Rates of unintended pregnancy in the  
13 United States increased by nearly 30 percent among  
14 low-income women between 1994 and 2001, and a  
15 low-income woman today is about 4 times as likely  
16 to have an unintended pregnancy as her higher in-  
17 come counterpart.

18 (5) Levels of contraceptive use among low-in-  
19 come women at risk of unintended pregnancy de-  
20 clined significantly between 1994 and 2001, from 92  
21 percent to 86 percent.

22 (6) By helping couples avoid unintended preg-  
23 nancy, Medicaid-funded and Title X contraceptive

1 services are highly cost-effective, and every public  
2 dollar spent on family planning saves \$4 in the cost  
3 of pregnancy-related care alone.

4 (7) Abortion rates decreased among higher in-  
5 come women but increased among low income  
6 women between 1994 and 2001, and a low income  
7 woman is more than 4 times as likely to have an  
8 abortion as her higher income counterpart.

9 (8) Most women cite more than one reason for  
10 their decision to have an abortion. The most fre-  
11 quently cited reasons were: “having a baby would  
12 dramatically change my life” (74 percent) by inter-  
13 fering with educational and job prospects and re-  
14 sponsibilities towards existing children and “cannot  
15 afford a baby now” (73 percent).

16 (b) PURPOSE.—The purpose of this Act is to provide  
17 a comprehensive initiative to—

18 (1) reduce the need for abortion by reducing  
19 the number of unintended pregnancies and sup-  
20 porting women facing unplanned pregnancies;

21 (2) prevent unintended pregnancies from occur-  
22 ring in the first place—

23 (A) by reducing teen pregnancy through  
24 comprehensive education, after-school and other  
25 programs, and involving parents; and

1 (B) by increasing support for family plan-  
2 ning services under Title X of the Public  
3 Health Service Act and extending Medicaid  
4 family planning services to more low-income  
5 women and men; and

6 (3) support pregnant women, new parents, and  
7 their children, through measures that address do-  
8 mestic violence and sexual assault, provide health  
9 care services, information about pregnancy, and  
10 other supportive services for pregnant women, and  
11 provide supportive services for new parents.

12 **SEC. 3. DEFINITIONS.**

13 For purposes of this Act:

14 (1) The term “Secretary” means the Secretary  
15 of Health and Human Services.

16 (2) Except as specified, the term “State” in-  
17 cludes the 50 States, the District of Columbia, the  
18 Commonwealth of Puerto Rico, the Commonwealth  
19 of the Northern Mariana Islands, American Samoa,  
20 Guam, the Virgin Islands, and any other territory or  
21 possession of the United States.

22 **SEC. 4. ELIGIBILITY OF INDIAN TRIBES FOR AWARDS.**

23 (a) IN GENERAL.—In the case of programs carried  
24 out pursuant to this Act that make awards of grants, co-  
25 operative agreements, or contracts, Indian tribes are eligi-

1 ble for awards under the programs in accordance with  
2 such criteria as the Secretary may establish.

3 (b) DEFINITIONS.—For purposes of this Act, the  
4 term “Indian tribe” has the meaning given such term in  
5 section 4 of the Indian Self-Determination and Education  
6 Assistance Act (25 U.S.C. 450b).

7 **TITLE I—EDUCATION PRO-**  
8 **GRAMS FOR PREVENTING**  
9 **TEEN PREGNANCIES**

10 **SEC. 101. FINDINGS.**

11 The Congress finds as follows:

12 (1) The United States has the highest teen  
13 pregnancy rate and teen birth rate among com-  
14 parable countries, costing the United States at least  
15 \$9,000,000,000 annually.

16 (2) Three out of ten young women in America  
17 become pregnant before they reach the age of 20.

18 (3) According to the National Center on Health  
19 Statistics, the teen birth rate increased 5 percent be-  
20 tween 2005 and 2007, reversing a 14-year decline.  
21 Teen birth rates increased significantly in over half  
22 of states, representing nearly every region of the  
23 country.

24 (4) Teen pregnancy has serious consequences  
25 for young parents, their children, and communities

1 as a whole. Too-early childbearing increases the like-  
2 lihood that a young woman will drop out of high  
3 school and that she and her child will live in poverty.

4 (5) Statistically, the sons of teen mothers are  
5 more likely to be incarcerated. The daughters of teen  
6 mothers are more likely to become teen mothers too.

7 (6) Teens that grow up in disadvantaged eco-  
8 nomic, social, and family circumstances are more  
9 likely to engage in risky behavior and have a child  
10 during adolescence.

11 (7) In a national survey on teen attitudes to-  
12 wards teen pregnancy, 7 in 10 girls and 6 in 10 boys  
13 report that they wish they had waited until they  
14 were older to have sex.

15 (8) Programs comprehensive in scope are effec-  
16 tive in reducing risk behaviors by delaying or reduc-  
17 ing sexual activity, reducing the number of sexual  
18 partners or increasing condom or contraceptive use.  
19 Reducing risky behaviors leads to reductions in un-  
20 intended pregnancy and abortion and transmission  
21 of sexually transmitted diseases (STDs), including  
22 HIV.

23 (9) According to the results of a 2005–2006  
24 nationally representative survey of U.S. adults, more

1 than 8 of 10 of those polled support comprehensive  
2 education.

3 (10) Ethnic and racial minority groups have  
4 been disproportionately affected by early pregnancy  
5 and parenthood. Fifty-three percent of Latina teens  
6 and 51 percent of African-American young women  
7 will become pregnant at least once before they turn  
8 20, as compared to only 19 percent of non-Hispanic  
9 White young women.

10 (11) Recent estimates suggest that while 15- to  
11 24-year-olds represent 25 percent of the sexually ac-  
12 tive population, they acquire nearly half of all new  
13 STIs. Each year, one in four sexually active teen-  
14 agers contracts a sexually transmitted infection.

15 (12) Nearly 15 percent of the 56,000 annual  
16 new cases of HIV infections in the United States oc-  
17 curred in youth ages 13 through 24 in 2006. An av-  
18 erage of one young person every hour of every day  
19 is infected with HIV in the United States.

20 (13) African-American and Latino youth have  
21 been disproportionately affected by the HIV/AIDS  
22 epidemic. Although African-American adolescents  
23 ages 13 through 19 represent only 17 percent of the  
24 adolescent population in the United States, they ac-  
25 counted for 70 percent of new HIV/AIDS cases re-

1 ported among teens in 2005. Latino adolescents  
2 ages 13 through 19 accounted for 17 percent of  
3 AIDS cases among teens, the same as their propor-  
4 tion of the U.S. population in 2005.

5 (14) Parental involvement is critical to any  
6 healthy relationship program. A major study showed  
7 that adolescents who reported feeling connected to  
8 parents and family were more likely than other teens  
9 to delay initiating sexual intercourse. Another study  
10 found that teens who reported previous discussions  
11 of sexuality with parents were seven times more like-  
12 ly to feel able to communicate with a partner about  
13 HIV/AIDS than those who did not have such discus-  
14 sions with their parents. Parental involvement is a  
15 leading protective factor for dating violence preven-  
16 tion.

17 (15) Comprehensive education programs respect  
18 the diversity of values and beliefs represented in the  
19 community and will complement and augment the  
20 education children receive from their families and  
21 faith communities.

22 (16) Incorporating teen dating violence preven-  
23 tion into health education and comprehensive edu-  
24 cation is imperative given the widespread experience  
25 of violence in dating relationships. Approximately

1 one in three teens reports some kind of abuse in a  
2 romantic relationship, including emotional and  
3 verbal abuse. Young women who experience dating  
4 violence have sex earlier than their peers; are much  
5 less likely to use birth control; and engage in a wide  
6 variety of high-risk behaviors including multiple  
7 partners, sex with older men, and drug and alcohol  
8 abuse. Young women who are victims of dating vio-  
9 lence are four to six times more likely than non-  
10 abused girls to become pregnant.

11 **SEC. 102. EDUCATION PROGRAMS FOR PREVENTING TEEN**  
12 **PREGNANCIES.**

13 (a) IN GENERAL.—The Secretary shall make grants  
14 to local educational agencies, State and local public health  
15 agencies, and nonprofit private entities for the purpose of  
16 carrying out projects to provide comprehensive education  
17 on preventing teen pregnancies.

18 (b) PREFERENCE IN MAKING GRANTS.—In making  
19 grants under subsection (a), the Secretary shall give pref-  
20 erence to applicants that will carry out the projects under  
21 such subsection in communities for which the rate of teen  
22 pregnancy is significantly above the average rate of such  
23 pregnancies.

24 (c) CERTAIN REQUIREMENTS.—A grant may be  
25 made under subsection (a) only if the applicant for the

1 grant meets the following conditions with respect to the  
2 project involved:

3 (1) The applicant agrees that information pro-  
4 vided by the project will be age-appropriate, factu-  
5 ally and medically accurate and complete, and sci-  
6 entifically-based.

7 (2) The applicant agrees that strategies rep-  
8 licate or substantially incorporate the elements of  
9 one or more comprehensive education programs that  
10 have been proven effective on the basis of rigorous  
11 scientific research to—

12 (A) delay sexual intercourse or sexual ac-  
13 tivity;

14 (B) improve contraceptive use;

15 (C) reduce the number of partners among  
16 those who are sexually active; or

17 (D) reduce teenage pregnancy.

18 (3) The applicant agrees that the project will  
19 not teach or promote religion.

20 (4) The applicant agrees that the project will  
21 substantially incorporate the following elements—

22 (A) encourage teens to delay sexual activ-  
23 ity;

24 (B) provide comprehensive educational  
25 services and interventions, including informa-

1           tion about the risks and benefits of all contra-  
2           ceptives as a means to prevent pregnancy and  
3           reduce the risk of contracting sexually trans-  
4           mitted diseases, including HIV/AIDS;

5           (C) educate both young men and women  
6           about the responsibilities and pressures that  
7           come along with parenting;

8           (D) encourage family communication about  
9           sexuality;

10          (E) teach young people the skills to make  
11          responsible decisions about sexuality, including  
12          how to avoid unwanted verbal, physical, and  
13          sexual advances and how avoid making un-  
14          wanted verbal, physical, and sexual advances  
15          that are not wanted by the other party;

16          (F) develop healthy relationships, including  
17          the prevention of dating and sexual violence;  
18          and

19          (G) teach young people how alcohol and  
20          drug use can effect responsible decision-making.

21          (d) **OPTIONAL ADDITIONAL ACTIVITIES.**—In car-  
22          rying out a comprehensive education program, a grant  
23          under this section may be expended to carry out, in addi-  
24          tion to the services specified in subsection (c), educational  
25          and motivational activities that help young people to—

1           (1) gain knowledge about the physical, emo-  
2           tional, biological, and hormonal changes of adoles-  
3           cence and subsequent stages of human maturation;

4           (2) develop the knowledge and skills necessary  
5           to ensure and protect their sexual and reproductive  
6           health from unintended pregnancy and sexually  
7           transmitted disease, including HIV/AIDS through-  
8           out their lifespan;

9           (3) gain knowledge about the specific involve-  
10          ment and responsibility of each individual in sexual  
11          decision making;

12          (4) develop healthy attitudes and values about  
13          adolescent growth and development, body image, ra-  
14          cial and ethnic diversity, and other related subjects;

15          (5) develop and practice healthy life skills, in-  
16          cluding goal-setting, decision making, negotiation,  
17          communication, and stress management;

18          (6) promote self-esteem and positive inter-  
19          personal skills focusing on relationship dynamics, in-  
20          cluding, but not limited to, friendships, dating, ro-  
21          mantic involvement, marriage, and family inter-  
22          actions; and

23          (7) prepare for the adult world by focusing on  
24          educational and career success, including developing  
25          skills for employment, job seeking, independent liv-

1 ing, financial self-sufficiency, and workplace produc-  
2 tivity.

3 (e) MATCHING FUNDS.—

4 (1) IN GENERAL.—With respect to the costs of  
5 the project to be carried out under subsection (a) by  
6 an applicant, a grant may be made under such sub-  
7 section only if the applicant agrees to make available  
8 (directly or through donations from public or private  
9 entities) non-Federal contributions toward such  
10 costs in an amount that is not less than 25 percent  
11 of such costs (\$1 for each \$3 of Federal funds pro-  
12 vided in the grant).

13 (2) DETERMINATION OF AMOUNT CONTRIB-  
14 UTED.—Non-Federal contributions required in para-  
15 graph (1) may be in cash or in kind, fairly evalu-  
16 ated, including plant, equipment, or services.  
17 Amounts provided by the Federal Government, or  
18 services assisted or subsidized to any significant ex-  
19 tent by the Federal Government, may not be in-  
20 cluded in determining the amount of such non-Fed-  
21 eral contributions.

22 (f) SUPPLEMENTATION OF FUNDS.—An applicant to  
23 which a grant is made under subsection (a) for a fiscal  
24 year shall use the grant to supplement and not supplant

1 funds that would otherwise be available to the applicant  
2 for carrying out the purpose described in such subsection.

3 (g) DATA REPORTING.—A State to which a grant is  
4 made under this paragraph for a fiscal year shall cooper-  
5 ate with the Secretary to collect information and report  
6 on outcomes of programs funded under the grant, as spec-  
7 ified by the Secretary.

8 (h) APPLICATION FOR GRANT.—A grant may be  
9 made under subsection (a) only if an application for the  
10 grant is submitted to the Secretary and the application  
11 is in such form, is made in such manner, and contains  
12 such agreements, assurances, and information, including  
13 the agreement under subsection (e), as the Secretary de-  
14 termines to be necessary to carry out this section.

15 (i) EVALUATION.—

16 (1) IN GENERAL.—The Secretary shall commis-  
17 sion a random assignment evaluation conducted by  
18 a third party of the programs of a few selected  
19 grantees under this section.

20 (2) ALLOCATION.—Of the amount appropriated  
21 to carry out this section, the Secretary may use not  
22 more than 10 percent of such amount for the pur-  
23 pose of carrying out clause (i) for fiscal year 2010.

24 (j) REPORT TO CONGRESS.—Not later than April 1,  
25 2015, the Secretary shall submit to the Congress a report

1 describing the extent to which projects under subsection  
2 (a) have been successful in reducing teen pregnancy and  
3 achieving other evaluation outcomes in the communities  
4 in which the projects have been carried out.

5 (k) DEFINITIONS.—For purposes of this section:

6 (1) The term “age-appropriate”, with respect to  
7 the information in pregnancy prevention, means top-  
8 ics, messages, and teaching methods suitable to par-  
9 ticular ages or age groups of children and adoles-  
10 cents, based on developing cognitive, emotional, and  
11 behavioral capacity typical for the age or age group.

12 (2) The term “factually and medically accurate  
13 and complete” means verified or supported by the  
14 weight of research conducted in compliance with ac-  
15 cepted scientific methods and—

16 (A) published in peer-reviewed journals,  
17 where applicable; or

18 (B) comprising information that leading  
19 professional organizations and agencies with  
20 relevant expertise in the field recognize as accu-  
21 rate, objective, and complete.

22 (3) The term “HIV/AIDS” means the human  
23 immunodeficiency virus, and includes acquired im-  
24 mune deficiency syndrome.

1           (4) The term “local educational agency” has  
2           the meaning given such term in section 9101 of the  
3           Elementary and Secondary Education Act of 1965  
4           (20 U.S.C. 7801).

5           (1) AUTHORIZATION OF APPROPRIATIONS.—For the  
6           purpose of carrying out this section, there are authorized  
7           to be appropriated such sums as may be necessary for  
8           each of fiscal years 2010 through 2015.

9           **TITLE II—REAUTHORIZATION OF**  
10           **CERTAIN            AFTER-SCHOOL**  
11           **PROGRAMS**

12           **SEC. 201. FINDINGS.**

13           The Congress finds as follows:

14           (1) The likelihood of teens having sex for the  
15           first time increases with the number of unsupervised  
16           hours teens have during a week.

17           (2) After-school programs can reduce teen risky  
18           behavior. Teenage girls who play sports, for in-  
19           stance, are more likely to delay sex and have fewer  
20           partners and less likely to become pregnant.

21           (3) After-school programs can help prevent teen  
22           pregnancy by advancing good decision-making skills  
23           and providing teens with health education and posi-  
24           tive role models in a supervised setting.

1 **SEC. 202. REAUTHORIZATION OF CERTAIN AFTER-SCHOOL**  
2 **PROGRAMS.**

3 (a) 21ST CENTURY COMMUNITY LEARNING CEN-  
4 TERS.—Section 4206 of the Elementary and Secondary  
5 Education Act of 1965 (20 U.S.C. 7176) is amended—

6 (1) in paragraph (5), by striking “and”;

7 (2) in paragraph (6), by striking the period at  
8 the end and inserting a semicolon; and

9 (3) by adding at the end the following:

10 “(7) \$2,750,000,000 for fiscal year 2010; and

11 “(8) \$2,750,000,000 for fiscal year 2011.”

12 (b) CAROL M. WHITE PHYSICAL EDUCATION PRO-  
13 GRAM.—Section 5401 of the Elementary and Secondary  
14 Education Act of 1965 (20 U.S.C. 7241) is amended by  
15 adding at the end the following:

16 “(7) \$755,000,000 for fiscal year 2010, of  
17 which \$80,000,000 is for carrying out subpart 10.

18 “(8) \$755,000,000 for fiscal year 2011, of  
19 which \$80,000,000 is for carrying out subpart 10.”

20 (c) FEDERAL TRIO PROGRAMS.—Section 402A(g) of  
21 the Higher Education Act of 1965 (20 U.S.C. 1070a-  
22 11(g)) is amended by striking “\$900,000,000 for fiscal  
23 year 2009 and such sums as may be necessary for each  
24 of the five succeeding fiscal years” and inserting  
25 “\$980,000,000 for fiscal year 2010 and such sums as may  
26 be necessary for each of the 5 succeeding fiscal years”.

1 (d) GEARUP.—Section 404H of the Higher Edu-  
2 cation Act of 1965 (20 U.S.C. 1070a-28) is amended by  
3 striking “\$400,000,000 for fiscal year 2009 and such  
4 sums as may be necessary for each of the five succeeding  
5 fiscal years” and inserting “\$450,000,000 for fiscal year  
6 2010 and such sums as may be necessary for each of the  
7 5 succeeding fiscal years”.

14 **PLANNED PREGNANCY**  
15 **AMONG COMMUNITY COL-**  
16 **LEGE STUDENTS**

17 **SEC. 601. FINDINGS.**

18 Congress makes the following findings:

19 (1) There are 11,500,000 students enrolled in  
20 community college and 60 percent of these students  
21 are women.

22 (2) 61 percent of women who have children  
23 after enrolling in community college fail to finish  
24 their degree. This drop-out rate is 65 percent higher  
25 than that of women who don't have children.

1           (3) Approximately 15 percent of all community  
2 college students are single parents compared to 6  
3 percent at 4-year colleges.

4           (4) Only two out of ten students at 2-year insti-  
5 tutions report receiving information from their col-  
6 lege on pregnancy prevention, compared to 33 per-  
7 cent of students at 4-year institutions.

8           (5) Few community colleges have the resources  
9 to provide information, education, or other activities  
10 focused on healthy relationships or pregnancy pre-  
11 vention and planning.

12           (6) For women with some college, 53 percent of  
13 pregnancies were unplanned. This is twice as high as  
14 the percent of pregnancies that are unplanned for  
15 college graduates (26%).

25 and rapes are experienced by women each year.

1           (2) Homicide was found to be a leading cause  
2 of pregnancy-associated injury deaths among women  
3 from 1991–1999. The pregnancy-associated homi-  
4 cide ratio was 1.7 per 100,000 live births.

5           (3) Women experiencing abuse in the year prior  
6 to and/or during a recent pregnancy are 40 to 60  
7 percent more likely than non-abused women to re-  
8 port high-blood pressure, vaginal bleeding, severe  
9 nausea, kidney or urinary tract infections and hos-  
10 pitalization during pregnancy and are 37 percent  
11 more likely to deliver preterm.

12           (4) Children born to abused mothers are 17  
13 percent more likely to be born underweight and  
14 more than 30 percent more likely than other chil-  
15 dren to require intensive care upon birth.

20 transmission, miscarriages, and risky sexual health  
21 behavior.

23 mate partner violence were more likely to report a  
24 lack of contraception use due to partner control over
